

CHRONOPAY

a new gear of e-commerce

Online payment solutions for your online store

ChronoPay provides secure and multi-currency online payment solutions to online stores.

Whether you are setting up a new business or adding e-commerce to an existing business, we can provide you with a high quality, flexible and cost effective online payment processing solution which enables your customers from around the world to pay in their own currency and with their preferred payment method.

If you wish to accept online credit card and debit card payments on your website it is necessary to set up a merchant account with an acquiring bank. ChronoPay will assist you in acquiring your own merchant account with one of our bank partners. Additionally, ChronoPay is able to support various local European payment methods.

As an alternative, we can also offer you our IPSP solution, which is a hassle free, effective payment solution allowing you to accept payments on your website, without obtaining your own dedicated merchant account.

ChronoPay's payment processing infrastructure is technically sophisticated. However, we provide our clients with an easy, user-friendly enrolment procedure, enabling them to quickly accept online payment on their website.

Secure ChronoPay

E-commerce fraud has increased significantly in the last few years. It is therefore important for you, as a merchant, to protect your online business against possible financial loss caused by fraud.

As a full service Payment Service Provider, ChronoPay provides you with advanced anti fraud solutions to allow you to transact business securely online and to ensure that your customer's details remain secure throughout the transaction process.

ChronoPay meets the highest security standards as required by the major credit card organizations Visa, MasterCard and American Express (PCI compliancy). Additionally, our system is tested daily for all known vulnerabilities and our payment page is certified by HackerSafe.

About ChronoPay

ChronoPay is one of the leading Payment Service Providers on the European market. Headquartered in Amsterdam, The Netherlands, the company enjoys an exceptional track record of growth. Our international network of partnerships with acquiring banks allows ChronoPay to offer its e-commerce clients an impressive variety of online payment methods for acceptance.

Testimonial

WWF

"We really enjoy working with ChronoPay. They have been more than helpful, very responsive and very open to listening to our individual needs and requirements. In our experience, this is a valuable, yet rare quality for an online payment processor."

Ste Drayton
Manager WWF Global Website
