

CHRONOPAY

a new gear of e-commerce

About ChronoPay

ChronoPay is one of the leading Payment Service Providers on the European market. Headquartered in Amsterdam, The Netherlands, ChronoPay is an innovative and visionary company, with high-level expertise in all areas of e-commerce. As a full service payment processing company, we offer businesses a wide variety of online payments solutions, including transaction processing for credit cards, debit cards and various local payment methods.

The management teams of ChronoPay and its subsidiaries consist of the some of the most experienced and knowledgeable professionals within the payment processing industry. Decades of collective experience have combined to produce a company with great maturity and a clear vision for the future.

ChronoPay meets the highest security standards, including Payment Card Industry (PCI) Data Security Standard compliance, as required by the major credit card organizations Visa, MasterCard and American Express. Additionally, our system is certified and tested daily by HackerSafe, which automatically checks for any presence of cyber vulnerabilities.

ChronoPay's payment processing infrastructure is technically sophisticated. However, we provide merchants with an easy, user-friendly enrollment procedure, enabling them to quickly set up our smart and reliable payment solutions. Our innovative services are supported by experienced and respected European financial organizations, ensuring that the entire transaction process is kept secure and confidential for our merchants and their customers.

Partner Program

ChronoPay works with many companies who offer services which are complementary to our own, creating an enhanced range of solutions for their online merchants. Companies which could introduce us to new clients are also being welcomed as our partner.

Examples of industry professionals who became successful partners:

- [Web hosts, web designers, web tools companies](#)
 - [E-commerce service companies](#)
 - [Shopping cart suppliers](#)
 - [System integrators](#)
 - [E-commerce and e-business consultants](#)
 - [Various internet services](#)
